Yasuki Tachibana

Akita International University, Yuwa, Akita-city, 010-1292 Japan

ytachibana@aiu.ac.jp

Personal Details

First Name	Yasuki
Last Name	Tachibana
Nationality	Japan

Position & Affiliation

Assistant Professor

Golbal Connectivity Program, Faculty of International Liberal Arts,
Akita International University

Research Interests

The dynamics of the QGP created in relativistic heavy-ion collisions.
In particular, the interplay between the QGP fluid and jets.

Empryment

Apr. 2020–	Assistant Professor Faculty of International Liberal Arts, Akita International University
Oct. 2017–Mar. 2020	Post-doctoral Researcher Department of Physics and Astronomy, College of Liberal Arts and Sciences, Wayne State University
Mar. 2016–Sep. 2017	Post-doctoral Researcher Institute of Particle Physics, and Key Laboratory of Quark and Lepton Physics (MOE), Central China Normal University
Sep. 2015–Feb. 2016	Short-term Lecturer Nishinippon Institute of Technology
Apr. 2015–Sep. 2015	Post-doctoral Researcher Theoretical Research Division, Nishina Center for Accelerator-Based Science, RIKEN
Apr. 2013–Mar. 2015	Research Fellow Japan Society for the Promotion of Science (JSPS) for Young Scientists (DC2)

Other Experiences

Mar. 2012–Mar. 2015	Course Student (*Secondary Supervisor: Prof. Takao Someya*) Advanced Leading Graduate Course for Photon Science (ALPS), The University of Tokyo
Apr. 2012–Present	Co-researcher Partnership (*Host Professor: Prof. Tetsufumi Hirano*) Faculty of Science and Technology, Sophia University
Apr. 2012–Mar. 2015	Student Trainee (*Host Scientist: Prof. Tetsuo Hatsuda*) Theoretical Research Division, Nishina Center for Accelerator-Based Science, RIKEN

Research Collaboration

Oct. 2017– JETSCAPE Collaboration [National Science Foundation (NSF) funded]
Convener of Physics Modeling Working Group [Jun. 2020–]

Education

Apr. 2012–Mar. 2015 Doctor of Philosophy (*Ph.D.*)
Department of Physics, Graduate School of Science,
The University of Tokyo
Supervisor: *Prof. Tetsuo Hatsuda*
Thesis title: *"Hydrodynamic response to jet propagation in quark-gluon plasma"*

Apr. 2010–Mar. 2012 Master of Science (*M.Sc.*)
Department of Physics, Graduate School of Science,
The University of Tokyo
Supervisor: *Prof. Tetsuo Hatsuda*
Thesis title: *"A Relativistic Hydrodynamic Model with Source Terms and its Application to Heavy Ion Collisions"*

Apr. 2006–Mar. 2010 Bachelor of Science (*B.S.*)
Department of Physics, Faculty of Science,
The University of Tokyo

Honors & Awards

Jun. 2025 Taro Yamashita Academic Research Encouragement Award
Mar. 2019 Young Scientist Award of the Physical Society of Japan (Theoretical Nuclear Physics)
Aug. 2012 Invitation to a Poster Flash Talk in Plenary Session (*Quark Matter 2012*, Washington D.C.)

Grants

Apr. 2025–Mar. 2029 Principal Investigator
Grant-in-Aid for Scientific Research (C), Grant No. 25K07303
"Probing the formation mechanism of extreme-high temperature quark-gluon plasma fluid through jet tomography"
Japan Society for the Promotion of Science (JSPS)
JPY 3,600,000

Apr. 2022–Mar. 2025 Principal Investigator
Grant-in-Aid for Early-Career Scientists, Grant No. 22K14041
"Jet thermalization in quark-gluon plasma"
Japan Society for the Promotion of Science (JSPS)
JPY 3,500,000

Apr. 2020–Mar. 2021 Co-Investigator (Principal Investigator: Tetsufumi Hirano)
Grant-in-Aid for Scientific Research (B), Grant No. 17H02900
"Development of unified model for high-energy nuclear collisions and physics of quark gluon plasma"
Japan Society for the Promotion of Science (JSPS)
JPY 600,000

Apr. 2013–Mar. 2014 Principal Investigator
Grant-in-Aid for JSPS Fellows, Grant No. 13J02554
"Integration of jet and QGP fluiddynamics in high-energy heavy-ion collisions"
Japan Society for the Promotion of Science (JSPS)
JPY 2,200,000

Fellowships/Scholarships

Apr. 2013–Mar. 2015	Research Fellowships of Japan Society for the Promotion of Science (JSPS) for Young Scientists (DC2)
Mar. 2012–Mar. 2015	Advanced Leading Graduate Course for Photon Science (ALPS) course, The University of Tokyo

Community Services

- Peer Review Referee

Physical Review Letters (*American Physical Society*)
Physical Review C (*American Physical Society*)
Physics Letters B (*Elsevier*)
Nuclear Physics A (*Elsevier*)
European Physical Journal C (*Springer*)
Chinese Physics C (*Chinese Physical Society*)
Particles (*Multidisciplinary Digital Publishing Institute*)

- Conference and Workshop Organization

Co-Chair
SoftJet 2024 (International Workshop)
September 28 and 29, 2024, University of Tokyo, Japan

Chair of Scientific Program Committee, Local Organizing Committee
Hard Probes 2024 (International Conference)
September 22–27, 2024, Nagasaki, Japan

Teaching Experiences

• Lectures (in English)

–At Akita International University–

Sep. 2024– Lecture for Undergraduate Class *"Math for Liberal Arts"*
- Teach logic, set theory, and probabilities for undergraduate students.
- Total number of class hours is 30† for each class.

Apr. 2024– Lecture for Undergraduate Class *"Linear Algebra"*
- Teach linear algebra to undergraduate students.
- Total number of class hours is 30† for each class.

Apr. 2020– Lecture for Undergraduate Class *"College Algebra"*
- Teach basics of algebra to undergraduate students.
- Total number of class hours is 30† for each class.

Sep. 2020– Lecture for Undergraduate Class *"Calculus"*
- Teach the basics of calculus to undergraduate students.
- Total number of class hours per year is 30† for each class.

Sep. 2020– Lecture for Undergraduate Class *"Information Science"*
- Teach basics of computer science and information theory to undergraduate students.
- Total number of class hours per year is 30† for each class.

†Equivalent to 37.5 hours (75 min/class). Teach 6–8 classes per academic year.

• Lectures (in Japanese)

–At Nishinippon Institute of Technology–

Sep. 2015–Mar. 2016 Lecture for Undergraduate Class *"Fundamental Physics"* (2 classes)
- Taught compulsory course on the basics of physics for first-year undergraduate students.
- Took charge of 2 classes (14 students on average in each class).
- Total number of class hours is 15* including midterm and term-end examinations.

Sep. 2015–Mar. 2016 Lecture for Undergraduate Class *"Fundamental Physics (S)"*
- Taught an advanced course on the basics of physics for first-year undergraduate students.
- Took charge of 1 class with 24 students.
- Total number of class hours is 15* including midterm and term-end examinations.

*Equivalent to 22.5 hours (90 min/class).

–At Department of Physics, the University of Tokyo–

Apr. 2010–Mar. 2011 Teaching Assistant for Undergraduate Class *"Computational Experiments"*
- Responded to questions and marked tests in the course.
- Course was on basics of computer operation and numerical calculation for third-year undergraduate students.
- Managed the computer room of the Department of Physics.

Visits

Jul. 2024	Wayne State University	(Host: *Prof. Abhijit Majumder*)
Mar. 2019	Central China Normal University	(Hosts: *Prof. Guang-You Qin*)
May 2017	Institute for Nuclear Theory	(INT Program INT-17-1b)
Feb. 2017	Lawrence Berkeley National Laboratory	(Host: *Prof. Xin-Nian Wang*)
Mar. 2015	Central China Normal University	(Hosts: *Prof. Xin-Nian Wang and Prof. Guang-You Qin*)
Mar. 2014	Institut de physique théorique de Saclay	(Host: *Prof. Jean-Yves Ollitrault*)
Mar. 2014	Universidad de Santiago de Compostela	(Host: *Prof. Carlos A. Salgado*)

Computer Skills

Operating Systems	Macintosh, Linux, Microsoft Windows
Programming Languages	C/C++, Python, JavaScript (Google Apps Script), Perl
Softwares	JETSCAPE, Root, Pythia, FastJet

Languages Skill

Japanese	Native
English	Fluent

Publications

- PAPERS (SELECTED)

–Published Papers–

Presentations

• Invited Talks

–International–

[1] “Dynamical Core-Corona Initialization Model for High Energy Nuclear Collisions,”
ExHIC-p workshop on polarization phenomena in nuclear collisions,
Institute of Physics, Academia Sinica, Taipei, Taiwan, March 15th, 2024.

[2] “Modification of hard and soft components of jets,”
Sixth Joint Meeting of the Nuclear Physics Divisions of the APS and the Physical Society of Japan,
Waikoloa, Hawaii, November 27th, 2023.

[3] “Jets and medium response (theory),”
ATHIC 2023, Hiroshima, Japan, April 24th, 2023.

[4] “Overview and recent progress on JETSCAPE,”
Workshop: Jet Physics: From RHIC/LHC to EIC, Center for Frontiers in Nuclear Science, Stony Brook Univ. [Online], June 29th, 2022
(for the JETSCAPE Collaboration).

[5] “Medium response to jets in JETSCAPE,”
Jet Quenching In The Quark-Gluon Plasma, ECT*, Trento, Italy, June 15th, 2022
(for the JETSCAPE Collaboration).

[6] “Hydrodynamic response to jets,”
Probing QCD at High Energy and Density with Jets (INT Program 21-2b),
Institute for Nuclear Theory, University of Washington [Online], July 27th, 2021.

[7] “Jet back reaction on the medium,”
Hard Probes 2020, The University of Texas at Austin [Switched to Online], June 3rd, 2020.

[8] “Interaction with jet and its medium response in quark-gluon plasma,”
Thermal quantum field theory and its application,
Yukawa Institute for Theoretical Physics, Kyoto University, September 4th, 2019.

[9] “Status of JETSCAPE,”
2019 RHIC & AGS Annual Users’ Meeting, Brookhaven National Laboratory, New York, June 4th, 2019
(for the JETSCAPE Collaboration).

[10] “Jets in QGP and medium response theory,”
Fifth Joint Meeting of the Nuclear Physics Divisions of the APS and the Physical Society of Japan,
Waikoloa, Hawaii, October 23rd 2018.

[11] “Jets with medium response,”
The Definition of Jets in a Large Background, RIKEN BNL Research Center, New York, June 26th, 2018.

[12] “Medium response to jet-induced excitation: theory overview,”
Quark Matter 2018, Venice, May 18th, 2018.

[13] “Medium response to jets in heavy ion collisions,”
ISMD 2017, Tlaxcala City, Mexico, September 15th, 2017.

[14] “Jet medium interactions,”
ATHIC 2016, New Delhi, India, February 19th, 2016.

[15] “Momentum Transport in Dijet+QGP-fluid,”
Quadrangle 2014, High Energy Strong Interactions: A School for Young Asian Scientists,
Central China Normal University, September 23rd, 2014.

[16] “Emission of Low Momentum Particles at Large Angles from Jet,”
Quark Matter 2012, Washington D.C., August 18th 2012.

–Domestic (given in Japanese)–

[17] “Exploring the Interplay Between Jet Showers and Quark-Gluon Plasma Fluid via Heavy-Ion Collisions,” Symposium “Exploring the creation of matter and structure in the universe from extreme non-equilibrium phenomena”, Spring meeting of Physics Society of Japan 2024, Online, March 20, 2024.

[18] “Recent aspects of quark-gluon plasma through high-energy nuclear collisions,” Symposium “The Next Generation of High-Energy Heavy-Ion Collisions: What Is Understood and What Should Be Understood?,” Spring meeting of Physics Society of Japan 2023, Online, March 22nd, 2023.

[19] “Summary of Hard Probe-related Talks in Quark Matter 2022,” 39th Heavy Ion Cafe & 35th Heavy Ion Pub Joint Workshop “Post QM”, KMI, Nagoya Univ., April 30th, 2022.

[20] “Fluid+Jets,” Workshop towards understanding the space-time evolution of heavy-ion collisions by modeling the QCD phase transition and QGP production from theoretical and experimental approaches, Online, September 24th, 2021.

[21] “Broadening of full jet in quark-gluon plasma with hydrodynamic medium response,” Spring meeting of Physics Society of Japan 2019, Kyushu University, March 15th, 2019.

● Invited Lecture Talks

–International–

[22] “Jet-medium excitation hands-on session [Hands-on Session],” JETSCAPE Online Summer School 2022, Online, August 1st, 2022.

[23] “Jet physics [Hands-on Session],” JETSCAPE Online Summer School 2021, Online, July 26th, 2021.

[24] “Medium Excitation by Jets,” JETSCAPE Online Summer School 2021, Online, July 23rd, 2021.

[25] “Medium Excitation by Jets [Hands-on Session],” JETSCAPE Online Summer School 2020, Online, July 20th, 2020.

[26] “Medium Excitation by Jets,” JETSCAPE Online Summer School 2020, Online, July 17th, 2020.

–Domestic (given in Japanese)–

[27] “Jet (Overview and Theory),” Tutorial workshop on physics in high-energy heavy-ion collisions, Osaka University, August 6th, 2024.

[28] “Phenomenology of Quark-gluon Plasma and Jet in Relativistic Heavy-ion Collisions,” Extended lecture, Particle and Hadron Theory Group, Department of Physics, Hiroshima University, November 17-18th, 2022.

● Contributed Talks

–International–

[29] “Extraction of jet-medium interaction details through jet substructure for inclusive and gamma-tagged jets,” Hard Probes 2024, Nagasaki, Japan, September 23rd, 2024 (for the JETSCAPE Collaboration).

[30] “Effects of multi-scale jet-medium interactions on jet substructures,” Hard Probes 2023, Aschaffenburg, Germany, March 29th, 2023 (for the JETSCAPE Collaboration).

[31] “Comprehensive study of multi-scale jet-medium interaction,” Quark Matter 2022, Kraków, April 5th, 2022 (for the JETSCAPE Collaboration).

[32] “Jets: back reaction onto the medium,” The 38th Heavy Ion Cafe, Online, September 18th, 2020.

[33] “Medium response and bulk fluid-velocity effect in jet quenching,”
3rd JETSCAPE Winter School and Workshop 2020,
University of Tennessee Knoxville [Switched to Online], March 19th, 2020.

[34] “Hydrodynamic response to jets with a source based on causal diffusion,”
Quark Matter 2019, Wuhan, China, November 5th, 2019 (for the JETSCAPE Collaboration).

[35] “Jet substructure modification in multi-stage jet evolution with JETSCAPE,”
2nd JETSCAPE Winter School and Workshop 2019, Texas A&M University, January 12th, 2019
(for the JETSCAPE Collaboration).

[36] “Jet substructure modifications in a QGP from multi-scale description of jet evolution with JETSCAPE,”
Hard Probes 2018, Aix-Les-Bains, France, October 30th, 2018 (for the JETSCAPE Collaboration).

[37] “Jet modification with hydro medium response,”
Precision Spectroscopy of QGP Properties with Jets and Heavy Quarks (INT Program INT-17-1b),
Institute for Nuclear Theory, University of Washington, May 10th, 2017.

[38] “Jet modification in QGP and hydrodynamic medium response,”
Santa Fe Jets and Heavy Flavor Workshop, Santa Fe, February 14th, 2017

[39] “Effect of hydrodynamic response in QGP on full jet,”
Quark Matter 2017, Chicago, February 8th, 2017.

[40] “Full jet including hydrodynamic response in heavy ion collisions,”
The 32nd Heavy Ion Cafe, RIKEN, January 21st, 2017.

[41] “Flow excited by full jet shower in quark-gluon plasma fluid and its effect on jet shape,”
Flow, Jet Quenching and Strong Coupling Physics, Huzhou University, China, December 17th, 2016.

[42] “Flow excited by full jet shower in QGP fluid and its effect on jet shape,”
Hard Probes 2016, Wuhan, China, September 25th, 2016.
